

International Student Mobility Program (ISMP)

Student Mobility Regulations for International Applicants

Introduction: Considering the research/education capacity at Ferdowsi University of Mashhad and its even expanding program on Internationalization of higher education in Iran, international students, who wish to enhance their international and linguistic experience, and/or scientific capabilities under the supervision of our faculty members, may benefit from "International Student Mobility Program (ISMP)".

1- Definition

International Student Mobility Program is an applicant/agreement based program in which students currently enrolled at their home university take part in one of the programs offered by FUM.

2- Goal

The aim of this program is to provide facilities for students from other universities to spend at least a short time at FUM to participate in the lectures relevant to their field of study. In the case of graduate students, they can carry out their intended research work under the supervision of FUM academic staff.

3- Entry Requirements

The applicant must be a Ph.D. / M.A/ M.S./ BSc/ BA currently enrolled at a home university.

4- Necessary Documents:

- a- Completed ISMP Application Form
- b- Recommendation letter from research supervisor for PhD/Msc/MA students
- c- PhD / MA/ MS students need to provide scientific background (CV)
- d- A research proposal to be forwarded to the relevant academic member at FUM intended to act as local supervisor during the mobility for PhD/Msc/MA students

5- Commitments of student

- a- Dedication to research and/or lectures during the mobility under the supervision and coordination of the program coordinator
- b- Observing all the educational, research and office regulations and rules

6- Duration of Program

The length of International Student Mobility Program (ISMP) is one semester. It can be extended with the approval of the program supervisor/conductor

7- Covering fees and resources

- a- Depending on the previous agreement of collaboration between FUM and home university of student, a special arrangement or offer of scholarship of any type, a fee

may be applied and the tuition fee for the period of mobility will be negotiated. All applicable fees can be found in <http://iso.um.ac.ir/>

- b- Should any specific laboratory experiments or workshop services be required during the mobility, the incurred costs must be paid by the student.
- 8- Commitments of FUM
- a- Providing university welfare facilities, according to existing regulations and standards of FUM. For more information please visit <http://iso.um.ac.ir/>
 - b- Issuance of an End-of-Mobility certificate by the vice-President for Postgraduate and Academic Affairs of FUM upon the successful completion of the program.
